HEALTH AND SAFETY

The safety and well-being of RMDC 2025 attendees, exhibitors, partners and team is our number one priority. RMDC 2025 will be conducted in strict accordance with federal, state and local safety guidelines and protocols. We will communicate all such guidelines and protocols to registered attendees as they become available.

HOTEL AND TRAVEL INFORMATION

Hotels: Take advantage of exclusive hotel and flight discounts for 2025 Rocky Mountain Dental Convention (RMDC) guests! Make getting to Denver a breeze so you can focus on enhancing your professional skills. Plus, stay and play after the convention with discounted Winter Park passes and accommodations. Visit rmdconline.com for details.

NOTE: All reservations for the official RMDC hotels need to be made using the link in the online registration form or at rmdconline.com. If you are making reservations by phone, please indicate you are with the Rocky Mountain Dental Convention (RMDC).

All reservations need to be received by the date designated by each hotel to guarantee availability and conference rates. After these dates, reservations are based on availability and the hotels may charge higher rates. All reservation requests need to be accompanied by a credit card deposit of one night's room and tax for each room reserved.

Reservation cancellations must occur by the dates specified by each hotel to avoid a cancellation fee. Any reservation canceled after the cancellation deadline will incur a fee.

Official RMDC hotel reservations are ONLY available on the RMDC website or when registering. We do not employ a third party who calls or emails attendees directly. We cannot assist you with any concerns if you book through these services.

Airfare: United Airlines is offering discounted fares into DIA. Please see rmdconline.com/hotel-and-travel for the booking link.

CONTINUING EDUCATION CREDIT

The Metropolitan Denver Dental Society (MDDS) is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Concerns or complaints about a CE provider may be directed to the provider or the Commission for Continuing Education Provider Recognition at ada.org/cerp.

MDDS designates this activity for a maximum of **20** continuing education credits. *Please note: that the number of CE credits is listed for each course.*

In addition, MDDS credits are approved by the AGD for Fellowship and Mastership credit.

Continuing education courses may not apply toward license renewal/CE requirements in all states. It is the responsibility of each attendee to verify the requirements of his/her licensing board or the organization to which he/she must submit proof of continuing education. Please check with your state board or other applicable organization if you have questions.

Dr. Laura Brenner

FAST TRACK: Beyond Dentistry: Achieving Personal and Professional Balance

Please Note: This course is open to dentists only.

A career in dentistry requires so much dedication that we often prioritize our professional identity at the expense of our sense of self. The relentless pursuit of career success can overshadow our aspirations and lead to burnout and be overwhelming. In this interactive session, you will gain clarity on your personal priorities, develop new guiding principles to support both your career and personal life, and take the first steps toward a balanced, fulfilling life.

Dr. Laura Brenner graduated from Baylor College of Dentistry in 2001, then moved to Denver, CO to establish her dental roots. She worked in private practice for 10 years and is now a Certified Professional Coach passionate about helping dentists find joy in their careers again.

Dr. Kevin Patterson

Does Your Patient Need an Opioid Prescription?

Learn the critical role dentists play in addressing the opioid crisis through safe and responsible prescribing practices. Discuss the latest guidelines for opioid use in dental practice, alternative pain management strategies and the importance of patient education. Gain insights into identifying patients at risk for opioid misuse, understanding state and federal regulations and implementing best practices for opioid prescribing. Become empowered with the knowledge and tools needed to manage pain effectively while minimizing the potential for opioid misuse and addiction.

Please note: This course meets the Colorado Dental Board's requirement for opioid education.

Dr. Kevin Patterson practices oral and maxillofacial surgery in Glendale, CO. He is an Associate Professor in the GPR program at the University of Colorado School of Dental Medicine. He is President of the Colorado Dental Association and serves on the Board of Directors for Kids in Need of Dentistry and the JP Opioid Interaction Awareness Alliance. He also serves on the advisory panel for Physicians for Responsible Opioid Prescribing.

Ms. Liz Pearson

Food and Dental Health: Optimizing Oral Microbiome Health to Reduce the Risk of Caries, Gum Disease and Disease Risk Overall

What we eat profoundly impacts our dental health, including the risk of dental caries, dental erosion and periodontal disease. Compelling and emerging research also shows a link between the health of the oral microbiome and our risk of disease. This course covers the importance of consuming a less processed, anti-inflammatory diet to optimize dental and overall health. It also covers the harm caused by sugary drinks, around-the-clock snacking and ultra-processed foods.

COURSE CODE	1238
TIME	8:00am – 10:30am
CE CREDITS	2.5
AUDIENCE	DT

Eating to Optimize Brain Health, Gut Health and Mental Health

The two most common psychological disorders in the world are depression and anxiety. A compelling and growing body of research says diet plays a significant role in their prevention and treatment. Certain nutrients and dietary patterns promote a healthy brain and gut microbiome—which are critical to mental well-being. In contrast, a lack of specific nutrients and an excess of unhealthy, processed foods can greatly harm mental health. This course covers optimizing mental health and significantly reducing the risk of depression and anxiety with food.

COURSE CODE	1239
TIME	1:30pm – 4:00pm
CE CREDITS	2.5
AUDIENCE	DT

Ms. Liz Pearson is a Registered Dietitian who has been researching, speaking and writing about nutrition for over 25 years. She is the author of four books, including two award-winning, national bestsellers.

Ms. Laci Phillips Newland

Death by Meetings: CPR for Collaboration

Team meetings are a key to your success and team cohesiveness. Learn which team meetings you should be having, when and who is involved. Discuss agendas, action items, project leads and following up to ensure meetings are successful. In addition, gain great leadership tools. It is time to breathe life back into your team meetings.

COURSE CODE	1250
TIME	8:00am – 10:30am
CE CREDITS	2.5
AUDIENCE	DT

▶▶ FAST TRACK: Your Patients' Expectations: Ditch the Rose-Colored Glasses

Between social media, your website, online reviews and word of mouth, most potential patients have expectations of your practice before their first visit. Is your practice living up to those expectations? Uncover the unseen gaps in your practice that patients notice – sometimes at an unconscious level. Create an action plan to identify the tangible and intangible details to evaluate. Leave this course with renewed vigor, excited to make the changes which will generate raving fans and increase both production and success in your practice.

COURSE CODE	1251
TIME	1:30pm – 3:00pm
CE CREDITS	1.5
AUDIENCE	DT

Ms. Laci Phillips Newland is a founding partner at Practice Dynamics. She combines her knowledge of dentistry with her passion for teams to deliver customized coaching, workshops and speaking events across the country.

Mr. Ryan Rutar

▶▶ FAST TRACK: Managing the Anxiety Within Ourselves

Dental professionals often experience anxiety, which can impact their ability to provide optimal care. It is crucial to develop strategies to recognize and cope with your anxiety to ensure you remain effective and compassionate in your practice. Recognize different parts of the brain responsible for anxiety behavior. Identify different medications and their effects to improve, complement or interfere with anxiety and apply strategies to enhance yourself and harmony in the workplace.

COURSE CODE	1320
TIME	9:30am – 11:00am
CE CREDITS	1.5
AUDIENCE	D, ND, H

COURSE SPONSORED IN PART BY SOLVENTUM

▶▶ FAST TRACK: Don't Assume! Enhancing Cultural Humility for LGBTQ+ Patients

A dental office can cause feelings of vulnerability and anxiety. But what if unconscious bias and stigma were added to the place people need to seek treatment? Learn why the LGBTQ+ community is considered a vulnerable population and how to modify strategies to enhance cultural humility within your office. With our current culture of division, it is more important than ever for dental professionals to foster relationships and build trust with their patients to provide the best care possible.

COURSE CODE	1321

Dr. Chris Salierno

Fighting the Profit Margin Squeeze: How Cash Moves Through a Dental Practice

Profit should not be a dirty word in dentistry. A practice that is more profitable can attract and retain team members, invest in technology to better serve patients and be more charitable to those in need. Fortunately, we can maximize profit without sacrificing quality of care. Examine how your business can accidentally hemorrhage money. Use gross profit margin to evaluate your procedure mix. Explore ways to become more efficient in delivering care and review key metrics for a fiscally healthy practice.

COURSE CODE	1242
TIME	8:00am – 10:30am

Leading Change in an Uncertain Dental Economy: Operations Management in Dentistry

The secret to managing a successful practice is systems. Whether you're figuring out how to improve accounts receivable or market to new patients, your approach should be the same. There is no single playbook that will work for every practice but there is a leadership philosophy that will consistently get results. In this course, we'll reveal the critical dental practice systems and give you the skill set you'll need to customize and implement them into your own business.

COURSE CODE	1243
TIME	1:30pm – 4:00pm
CE CREDITS	2.5
AUDIENCE	D, ND, F

Dr. Chris Salierno is a general dentist from Long Island, NY. He was the Chief Editor of Dental Economics from 2014 to 2021. In 2021, he became the Chief Dental Officer at Tend. Dr. Salierno is an industry consultant, blogger and international speaker.

Dr. Silky Sharma

Decoding Periodontal Classification Using a Case-Based Approach

Gain a profound comprehension of the 2017 periodontal classification system and its application through a case-based approach. Diverse case studies will be used to distinguish various stages and grades, supported by rationales grounded in the criteria of the new classification system. The course content will immerse you in the intricacies of periodontal diseases, guiding you through various stages of diseases and offering practical insights into decoding complex cases through real-world examples.

COURSE CODE	1296
TIME	1:30pm – 4:30pm

HANDS-ON/FEE COURSES

Thursday, January 23, 2024: Premium

Ms. Christie Baker

Excellence in Class II Restorative Materials and Techniques

Understand preparation design for anterior composite placement. Learn various isolation methods along with matrices to gain anatomic form to maximize efficient use of treatment time. Discover which adhesive system, composite or combination of composites to use, and learn how to finish and polish composite to resemble natural enamel surface and gloss.

FEE	\$169 (Limited Attendance)
COURSE CODE	1350
TIME	8:00am – 11:00am
CE CREDITS	3
AUDIENCE	C

Techniques for Creating Functional Provisionals

Provisional restorations serve as a vital diagnostic and assessment tool to evaluate function, color, shape, contour, occlusion and overall esthetics. With increased demands placed on provisional restorations, new materials and techniques have been developed – and some existing protocols are being refined to accomplish desired goals. In this course, learn current materials, techniques and concepts in fabricating and maintaining functional provisionals.

FEE	\$169 (Limited Attendance)
COURSE CODE	1351
TIME	1:30pm – 4:30pm
CE CREDITS	3
AUDIENCE	C

Ms. Christie Baker has over two decades of dental experience. She has trained dental professionals across the United States and Canada and serves as a key opinion leader for some of dentistry's top manufacturers. She also has been a keynote speaker at major conferences.

Dr. Leonard Hess

Core 1: Occlusion and Smile Design - Day 1

Dive into the fundamentals of functional occlusion. This comprehensive two-day course is designed to elevate your practice to new heights, offering a seamless integration of foundational occlusal principles with cutting-edge digital workflows. Beyond mastering the intricacies of esthetic dentistry, Core 1 provides practical strategies to reduce insurance dependency, ensuring a robust bottom line. Redefine the possibilities of dental excellence and business success, positioning yourself as a leader in your community. The first step on the journey toward becoming a Dawson Scholar starts with Core 1. See complete course details at rmdconline.com.

Dr. John Olmsted

👤 Excellent and Efficient Endodontic Workshop - Session 1

This half-day evidence-based hands-on course will provide you with cutting-edge rotary/reciprocation instrumentation with new flexible and safe files, location of calcified canals and MB2 and obturation of the root canal system utilizing bio ceramic sealer.

Dr. John Olmsted is a Past President of the American Association of Endodontists. He is currently an Adjunct Professor in Endodontics at the University of North Carolina and the University of Iowa. He has been active in practice, teaching, lecturing and professional dental organizations for the past 48 years.

FEE	\$449 (Limited Attendance)
COURSE CODE	1274
TIME	8:00am – 11:00am
CE CREDITS	3
AUDIENCE	D, ND

👤 Excellent and Efficient Endodontic Workshop - Session 2 (Repeat)

This course is a repeat of Dr. Olmsted's morning hands-on workshop.

FEE	\$449 (Limited Attendance)
COURSE CODE	1275
TIME	1:30pm – 4:30pm
CE CREDITS	3
AUDIENCE	D, ND

Friday, January 24, 2025: Premium

Dr. Atousa Safavi & Dr. Linda Thomson

Hypnosis and Effective Hypnotic Communication in the Dental Office Workshop

Please Note: The morning lecture or participation in the RMDC 2024 hypnosis workshop is a prerequisite for this hands-on course.

The usefulness and effectiveness of clinical hypnosis in a dental setting is indisputable where pain can be transformed into comfort and fear and anxiety into calm and control. In this hands-on workshop, multiple rapid elicitation/induction techniques will be demonstrated. Participants working in dyads will have ample opportunity to practice techniques they can immediately incorporate into their practice to ease anxiety and control pain.

FEE	\$179 (Limited Attendance)
COURSE CODE	1218
TIME	1:30pm – 4:30pm
CE CREDITS	3
AUDIENCE	D, ND

Dr. Atousa Safavi is a general dentist at her private practice, Clermont Dental, in Denver, CO. She is an Adjunct Clinical Professor at CU School of Dental Medicine. Dr. Safavi is an Approved Consultant in Clinical Hypnosis and has been awarded The Merit and Early Career Professional Award of the American Society of Clinical Hypnosis (ASCH).

Dr. Linda Thomson is an Approved Consultant in Clinical Hypnosis and is the first nurse to ever have been awarded Diplomate status on the American Board of Medical Hypnosis. She is also a Diplomate and Past President of the American Board of Hypnosis in Nursing. Dr. Thomson is a Fellow and Past-President of American Society of Clinical Hypnosis and Moderator of the Board of Governors.

Dr. Lori Trost

Reduce Your Temporary-Making Anxiety: Learn to Create Beautiful and Functional Temporary Restorations

Discover a consistent and predictable system that guarantees durable and functional temporary restorations. Learn step-by-step techniques for fabricating solid temporaries. Discover how to select proper materials for individual case presentation. Learn shade matching, high-end esthetics and polishing. Learn how to restore broken cusps with confidence and more.

FEE	\$169 (Limited Attendance)
COURSE CODE	1281
TIME	8:00am – 11:00am
CE CREDITS	3
AUDIENCE	D, ND, C

Build the Rock-Solid Posterior Composite – Session 2 (Repeat)

This course is built on streamlining the direct placement of composites for the busy dental practice and will offer solutions for more predictable composite restorations and better patient outcomes. Throw away your frustration and stress - welcome a systematic and reliable approach to universal adhesion, sectional matrix placement and bulk-fill composite benefits. Learn which materials and instruments can build a durable, well-polished restoration more easily.

FEE	\$169 (Limited Attendance)
COURSE CODE	1280
TIME	1:30pm – 4:30pm
CE CREDITS	3
AUDIENCE	D, ND, C

Dr. Lori Trost maintains a comprehensive restorative practice in the Greater St. Louis, MO area. She is an Inside Dentistry editorial board member and clinical evaluator for Dental Advisor. She consults many dental manufacturers on product development to create clinical success.

Saturday, January 25, 2025

Dr. Ashleigh Briody

Practical Oral Pathology: Part 1

This course will cover common entities in oral pathology. Similar entities will be presented side by side, with differences shown to emphasize how to tell them apart. Learn how to recognize precancerous lesions, malignancies and immune-mediated diseases, as well as when to treat, how to treat and when to refer. The session includes common radiographic findings with comparisons and interesting cases, going more in-depth regarding common pathoses and treatment options.

COURSE CODE	1288
TIME	8:00am – 10:30am
CE CREDITS	2.5
AUDIENCE	D, ND

Practical Oral Pathology: Part 2, Including Radiographic Pathology (Continuation)

This course is a continuation of Dr. Briody's morning lecture. In Part 2, Dr. Briody will review radiographic terminology and how to use these terms for differential diagnosis. She will discuss radiolucencies, radiopacities, mixed lesions and how to decide when to refer for biopsy.

COURSE CODE	1289
TIME	12:30pm – 3:00pm
CE CREDITS	2.5
AUDIENCE	D, ND

Dr. Ashleigh Briody earned her DDS from Louisiana State University School of Dentistry. She completed her Oral & Maxillofacial Pathology residency at The Ohio State University, where she earned a certificate and master's degree. In practice, she sees patients clinically, diagnosing and managing oral disease, performing biopsies and CO2 laser ablation and reading the tissue microscopically.

Dr. Steve Carstensen

Understanding Screening and Diagnosis Technology for Sleep-Related Breathing Disorders

This course will help you learn how to start a dental sleep screening program for your office and understand consumer sleep technology and how it's useful in every dental practice. You will see the role of screening technologies, home sleep tests and medical physicians in diagnosing sleep-related breathing disorders (SRBD) and learn to effectively communicate with patients and other clinical specialists about SRBD screenings and diagnoses.

COURSE CODE	1219
TIME	8:00am – 10:30am
CE CREDITS	2.5
AUDIENCE	D, ND

Appliance Therapy: Matching Patients to the "RIGHT" Device

There is no perfect, universal appliance. This course gives rationale for matching patients to the best Mandibular Advancement Device based on specific patient needs. Learn the key details of several excellent appliances, troubleshoot problems they have had in practice and identify key data points on sleep reports.

COURSE CODE	1220
TIME	12:30pm – 3:00pm
CE CREDITS	2.5
AUDIENCE	D, ND

Dr. Steve Carstensen is a diplomate of the American Board of Dental Sleep Medicine and directs sleep education at the Pankey Institute. He volunteers as a Consultant to the ADA for sleep-related breathing disorders and is the Chief Dental Editor of Dental Sleep Practice Magazine. He is on the advisory boards of Respiva and Sharkbiit and is Clinical Education Director for Airway Technologies, Inc.

Saturday, January 25, 2025

Dr. Brooke Fukuoka

SDF/SMART and Other MID Techniques: Choose Your Own Adventure

Silver Diamine Fluoride and SMART restorations have been gaining interest in dentistry. In this course, participants will select the topics covered – Jeopardy-style! Sample topics include the basic science behind SDF and Glass Ionomer; the various protocols with SDF and Glass Ionomer; partial caries removal indications and contraindications for SDF/SMART; other topical medicament options and more!

COURSE CODE	1248
TIME	8:00am – 10:30am
CE CREDITS	2.5
AUDIENCE	D, ND, H

▶▶ FAST TRACK: A New Solution for Daily Oral Hygiene in Long-Term Care: Assisted and Guided Oral Hygiene and the YSS Oral Hygiene Ability Spectrum

Caregivers in long-term care facilities face challenges in providing daily oral hygiene. Discuss solutions to addressing these challenges. Learn to categorize patients based on their ability to perform oral hygiene tasks and their willingness to cooperate. Understand the difference between Assisted Oral Hygiene and Guided Oral Hygiene and when to use each program to maximize efficiency. Learn how daily oral kits are assembled and learn which services have CDT codes and which do not.

COURSE CODE	1249
TIME	12:30am – 1:30pm
CE CREDITS	1
AUDIENCE	D, ND, H

Dr. Brooke Fukuoka works full-time with Family Health Services of Idaho where she has developed their Advanced Delivery Dental Clinic for patients with special healthcare needs. In her part-time practice, Your Special Smiles, she practices portable dentistry, hospital dentistry and teledentistry.

Dr. Michelle Lee

Anterior Esthetics: Diagnose, Design and Deliver

Learn to diagnose anterior wear cases and comprehensively plan to restore form, function and esthetics. Approach anterior esthetics from a systematic global restorative sequence that will allow you to approach comprehensive anterior esthetic cases predictably. Review planning with a digital design process for improved case outcomes and higher patient acceptance. Discuss bite splint therapy with posterior and anterior determinants of occlusion in treatment planning and case design.

COURSE CODE	1223
TIME	8:00am – 10:30am
CE CREDITS	2.5
AUDIENCE	D, ND

Cracked Tooth Syndrome: How to Diagnose and Treat

Dental cracks and tooth fractures are encountered by dental professionals daily; however, the degree, severity and diagnostic understanding may become confusing, ambiguous and frustrating when deciding on the proper treatment. In this course, we will simplify identifying, diagnosing and offering treatment options for patients using evidence-based dentistry. We will also explore microscope dentistry to understand these principles.

COURSE CODE	1224
TIME	12:30pm – 3:00pm
CE CREDITS	2.5
AUDIENCE	D, ND

Dr. Michelle Lee is a graduate of the University of Pennsylvania School of Dental Medicine. She maintains a private practice in Fleetwood, PA. Dr. Lee serves on The Pankey Institute Board of Directors, Advisory Board, Pankey Faculty and holds a Pankey Scholar distinction. Additionally, she teaches restorative microscope dentistry at the University of Pennsylvania Dental School.

Dr. Todd Pickle

Dental Implants: How to Recognize, Manage and Avoid Complications

Dr. Pickle will present an in-depth discussion of diagnosis using CBCT, photos, casts and scans; treatment planning considerations; pre-treatment preparations, communication, stents and provisionals; in-treatment considerations; post-treatment, maintenance, long-term considerations and more.

COURSE CODE	1234
TIME	8:00am – 10:30am
CE CREDITS	2.5
AUDIENCE	D, ND

Dental Implant Options from Single Tooth to Full Mouth

In this session, Dr. Pickle dives into diagnosis and treatment considerations for single posterior, anterior and multiple single implants; quadrant, spaced or adjacent anterior and/or posterior implants; sectional arch fixed or removable implants; and double full arch fixed or removable implants. He additionally covers long-term considerations including occlusion, splinting, cantilevers and materials, as well as maintenance, hygiene, repairs and remakes.

COURSE CODE	1235
TIME	12:30pm – 3:00pm
CE CREDITS	2.5
AUDIENCE	D, ND

Dr. Todd Pickle is a prosthodontist in Colorado Springs, CO. He received his DDS at UTHSC San Antonio and completed his prosthodontic residency and master's program at what is now TAMUHSC Dallas. He earned his maxillofacial prosthodontics fellowship at UT MD Anderson Cancer Center.

Ms. Katrina Sanders

Local Anesthesia: New Techniques, the Latest Trends and Troubleshooting

This course guides participants through the common causes of injection failure, including anatomical and physiological conditions. Explore techniques used in private practice (why only private practice?), including appropriate doses of anesthesia and anatomical and armamentarium considerations. Discover alternative injection techniques and discuss new trends in the provision of pain management. Building on a solid basis of anatomy, learn how to deliver and troubleshoot local alternative injections – safely and effectively.

COURSE CODE	1264
TIME	8:00am – 10:30am
CE CREDITS	2.5
AUDIENCE	D, ND, H

Getting Them to A.S.K. for Treatment: A Periodontal Case Acceptance Program

Using the “Assessment – Strategy – Knowledge” technique, learn how to achieve high-level treatment case acceptance simply by changing the dialogue around dentistry and, ultimately, getting patients to ask you for their needed treatment! Learn how the ASSESSMENT phase provides critical insights to develop a STRATEGY to support patients in empowering themselves to approach dental communication from a space of KNOWLEDGE aimed at optimizing their complex care.

COURSE CODE	1265
TIME	12:30pm – 3:00pm
CE CREDITS	2.5
AUDIENCE	D, ND, H

Ms. Katrina Sanders is the Clinical Liaison for AZPerio, the country's largest periodontal practice. She performs clinically, working alongside Diplomates to the American Board of Periodontology in the surgical operator. She is a contributor for DentalTown Magazine, Modern Hygienist and Today's RDH. She also serves on the advisory board for Modern Hygienist.

Saturday, January 25, 2025

Dr. Joshua Solomon

Mini Residency in Pediatric Dentistry for the General Dentist: Part 1

Attend this course to learn the most important aspects of a thorough examination of a pediatric or teen patient. Understand how SDF works and where and when it should and should not be used. Discover why many pit and fissure sealants fail and how to avoid this. Learn how to quickly fabricate and cement chairside space maintenance appliances. Review the use of esthetic, prefabricated crowns for primary teeth and much more.

COURSE CODE	1314
TIME	8:00am – 10:30am
CE CREDITS	2.5
AUDIENCE	D, ND

Mini Residency in Pediatric Dentistry for the General Dentist: Part 2 (Continuation)

This course is a continuation of Dr. Solomon's morning lecture. Information from the morning session will not be repeated in this course.

COURSE CODE	1315
TIME	12:30pm – 3:00pm
CE CREDITS	2.5
AUDIENCE	D, ND

Dr. Joshua Solomon is a private practitioner in Livermore, CA. He is the founder and director of the Dental Specialty Teaching Center and a full faculty member at the Bioclear Learning Center. He serves as a key opinion leader for several domestic and international companies in restorative dentistry, technology and local anesthesia delivery.

REGISTRATION DEADLINES

Special Early Registration:

October 31, 2024

Pre-registration:

December 6, 2024

Convention Cancellations:

December 31, 2024

MAILING OF BADGES

Convention badges for participation at the Colorado Convention Center will be mailed to all attendees who have registered by December 6, 2024. Attendees registered after this deadline will need to pick up their badges onsite at Registration in Lobby D of the Colorado Convention Center.

CONVENTION CANCELLATION POLICY

Cancellations for both registration and fee courses will be accepted and are entitled to a refund provided the request is emailed to MDDS at registration@mddsdentist.com by December 31, 2024. A 10% administrative fee will be deducted from the refund for each canceled registration. If a name badge has been mailed prior to the request for cancellation, the badge will be de-activated.

SUBSTITUTION POLICY

Substitutions are allowed. To make a substitution call RMDC Registration at (303) 957-3268 to change the registrant's information and pay any fee difference. Substitution requests after badges are mailed need to be made onsite at Registration in Lobby D of the Colorado Convention Center. Bring the badge that needs to be substituted, if available.

HEALTH AND SAFETY

The safety and well-being of RMDC 2025 attendees, exhibitors, partners and team is our number one priority. RMDC 2025 will be conducted in strict accordance with federal, state and local safety guidelines and protocols. We will communicate all such guidelines and protocols to registered attendees as they become available.
